

March 14-15, 2017, Sutomore, Montenegro

Call for CRYPTACUS Workshop presentations

ABOUT COST CRYPTACUS ACTION

Recent technological advances in hardware and software have irrevocably affected the classical picture of computing systems. Today, these no longer consist only of connected servers, but involve a wide range of pervasive and embedded devices, leading to the concept of “ubiquitous computing systems”. The objective of the Action is to improve and adapt the existent cryptanalysis methodologies and tools to the ubiquitous computing framework.

Workshop topics include:

- Security and Privacy Models
- Cryptanalysis of Protocols and Primitives
- Hardware and Software Security Engineering
- Security and Privacy Analysis of Real-World Systems

PROGRAMME COMMITTEE

- Dr Milena Djukanovic
- Dr Serge Vaudenay
- Dr Andrey Bogdanov
- Dr Lejla Batina
- Dr Flavio Garcia

IMPORTANT DATES

Workshop presentation submission: 10th February 2017

Workshop presentation notification: 20th February 2017
